

A map of the Chesapeake Bay area, divided into 18 numbered regions. The regions are colored in shades of green and blue. A red box highlights the northernmost region (1), which is the source of the Potomac River. A red line traces a path from the box, following the river's course through regions 2, 3, 4, 7, 10, 11, 12, 13, and 14, eventually leading to the Chesapeake Bay. The map also shows the Delaware River flowing into the bay from the south (region 15) and the Susquehanna River flowing into the bay from the west (region 16). The bay itself is labeled as region 17. The surrounding land is colored in shades of brown and tan.
